- **Rehabilitation and Remodeling**
- **Energy Efficiency and Sustainability in Construction**
- **Internationalization**

REHABILITATION AND REMODELING

West Lisbon has invested EUR 12.6 million

According to information on work permits provided by the Municipality of Lisbon, investment in capital was directed mostly to works of urban regeneration.

SRU - Urban Rehabilitation Society reveals that in the last 3 semesters, the entity already rehabilitated directly about 70 thousand square meters of public space and seven residential buildings. The private sector has been invested 58 million euros in the recovery of 240 buildings.

In Porto since the beginning of 2014, the Porto Vivo has already received 850 applications for permit works, mostly for housing, which means an increase of 70% compared to last year.

For 2015, have information on the SRU are designed works of 3.3 million euros.

Melon, specialized in rehabilitation works, noted "an exponential growth in rehabilitation in Real Estate in Lisbon ", and the refurbished apartments intended for permanent residence.

REHABILITATIONA AND REMODELING

The latest data revealed by **CPCI - Portuguese Confederation of Construction and Real Estate**, in last October, point to a 5.8% improvement in the level of activity reported by entrepreneurs, which is accompanied by an increase de10,3% in the index on the order book. The Permits of building rehabilitation works nonresidential also reveals an annual increase until September of 4.6%. Europe refers to urban regeneration an added relevance in this new period of European programming for the period 2014-2020.

Data provided by the **Port Authority** show that in 2014 and so far, 649 were the processes for construction rehabilitation received at the city planning department, of which 499 were issued.

The level of activity of companies dedicated to urban renewal grew 18% in November from the previous month. The completion is given by the **Association of Manufacturers of Civil Construction and Public Works (AICCOPN)**. For six consecutive months that order books are increasing. November recorded a chain variation of 10%.

In Alentejo, Jessica - European Comunal Support for Sustainable Investment in Urban Areas, already financed seven projects with a total investment of around 44 million euros. There are still 30 million available, and the brief term will be closed three more in tourism and social facilities, information revealed by the **CCDR - Commission for Coordination and Regional Development of Alentejo**.

ENERGY EFFICIENCY AND SUSTAINABILITY IN CONSTRUCTION

Increasingly encourage the good practice for **Energy Efficiency and Sustainability**

Renovation of Houses and Offices, Renewable and Solar programs are just some of the Energy Efficiency and levers that are part of the Great Programs Portugal Efficiency 2015 (National Action Plan).

We are facing great challenges for the future, and **Energy Efficiency**, the highest priority policy national energy, which is to be reached by 2020, a reduction in energy consumption of 30%.

Solutions for intelligent growth is in hand with **Energy Efficiency and Sustainability**.

TEKTÓNICA is the stage where companies who care about the future, have the opportunity to disseminate solutions or products, ideas and experiences, establish partnerships and show the world how they contribute for sustainability.

INTERNATIONALIZATION

WE ARE YOUR PARTNER IN EXPORTATION

BIG INTERNATIONAL MEETS (in order to increase contacts and exports) - With the participation of international guests

- Greater emphasis on the countries of the CPLP and Latin America
- Big Lusophony Meeting

GUEST COUNTRIES

- COLOMBIA
- MOROCCO

HOSTED BUYERS PROGRAM

Makes Tektónica the gateway in Portugal for foreign buyers with financial and discloses the world the capacity and competitiveness of Portuguese companies.

Join Tektónica in 2015 and be part of the OF THE HOSTED BUYERS PROGRAM. Tektónica supports the coming of your buyers to Portugal.

EVENTS TEKTÓNICA 2015
