# breeze

**Top Quality  
Personal Care  
Products**

## Do you?

- Prefer a loofa with natural sense?
- That cleans with no allergic reactions?
- That has a fantastic look?

Breeze is the only natural, non chemically treated loofa which can be used for cleaning, exfoliating & removal of dead cells for the human body.

## Overview

Egyptian projects company (EPC) is specialized in producing naturally, unbleached and non-chemically treated loofa sponge.

We produce top quality products through our in-depth application know-how and strict quality assurance implemented by our team of experts.

We ensure fast innovation, strong customer focus & quality oriented personal care products.

Our Products are 100% natural (no chemicals, no bleaching, and no acid addition)

## Facility

Over 1000 Sq. meter with a production capacity of 50,000 item per month and equipped with latest machines and tools to enable our team to fully function.

## Team

Composed of 40 experienced workers all working in a friendly environment and receives periodic training to maintain our top quality production.

## Process

We nurture our natural loofa from the beginning of its cultivation till harvesting to start the process of peeling and washing. With **no chemicals, acids, or bleaching agent** our loofa gets out of the cleaning process to enter cutting, shaping, and molding process to obtain the natural sense of the loofa with its enriched ridges and full body texture.

Our loofa then undergoes through a perfect tailoring process and path through a strict quality control unit to meet perfect product standards.
